UPCOMING IAEA REPORT

[1](#)2. (C) Pol Unit Chief discussed ref a issues with Ramadansyah Hasan of the Directorate of International Security and Disarmament at the Department of Foreign Affairs (DEPLU) on November 2. He provided non-papers on U.S. core criteria for judging progress on the centrifuge issue and on the P5 statement. He also emphasized that these criteria were a reasonable bar, that the United States would view Iranian cooperation as insufficient unless each of the criteria were satisfactorily met, and that--if criteria remained unmet--the USG would support the adoption of additional Chapter VII sanctions at the UNSC and would press for a vote on a resolution as soon as possible.

[1](#)3. (C) Hasan reviewed the core criteria and said his office would study them. He said Indonesia supported the use of diplomatic means to resolve the conflict until those means had been exhausted fully. That said, Indonesia expected Iran to follow the "Work Plan" and demonstrate transparently that it intended to use nuclear energy only for peaceful purposes. He underscored that Indonesia did not want to see Iran develop nuclear weapons.

DESIGNATION OF IRANIAN ENTITIES

[1](#)4. (C) Pol Unit Chief also reviewed with Hasan ref b information and themes regarding Iranian entities and individuals which had been designated under U.S. executive orders. Asked whether Indonesia had taken appropriate actions in this direction since Mission had conveyed the information to DEPLU on October 26, Hasan said Indonesia had

an obligation as a UN member to fulfil the requirements of UNSCR 1737 and 1747. In that regard, DEPLU had circulated the U.S.-provided list of entities and individuals to all Indonesian "stakeholders"--government agencies and commercial businesses trading in the Persian Gulf area. On the basis of responses it had received, DEPLU believed no Indonesian companies were involved in any commercial dealings with the designated Iranian entities or individuals.
